Notification of Emergency Date Extension for Demerol™ (Meperidine Hydrochloride Injection, USP C-II), Multiple Presentations

Dear Valued Customer,

Pfizer has received approval from the U.S. Food and Drug Administration (FDA) of our emergency request to extend the use date for 2 lots of **Demerol™ (Meperidine Hydrochloride Injection, USP C-II), 50 mg/mL, Carpject glass syringe**, NDC 0409-1178-30, and **Demerol™ (Meperidine Hydrochloride Injection, USP C-II), 75 mg/mL, Carpject glass syringe**, NDC 0409-1179-30, to mitigate a shortage of this critical product.

The lots listed in the table included at the end of this letter have been extended 4 months beyond the September 30, 2025, use date to January 30, 2026 for Demerol™ (Meperidine Hydrochloride Injection, USP C-II), 50 mg/mL, Carpject glass syringe and 1 month beyond the December 1, 2024, use date to January 1, 2025 for Demerol™ (Meperidine Hydrochloride Injection, USP C-II), 75 mg/mL, Carpject glass syringe.

If replacement product becomes available during the extension period, customers are expected to replace and properly dispose of these affected lots as soon as possible. We anticipate that FDA's [website](#), which lists extended use dates to assist with drug shortages, will also be updated to reflect this information.

If you have any questions, please call our Customer Service Department at 1-844-646-4398.

Thank you,

Kevin Martyn
Portfolio Director, Opioid & Syringe Technology
Pfizer Hospital U.S.

Emergency Extended Use Dating for 2 Lots of Demerol™ (Meperidine Hydrochloride Injection, USP C-II), Multiple Presentations
