**Product Packaging and NDC Change for
Hydromorphone HCl Injection, USP, CII 2 mg/mL Single Dose Glass Fliptop Vial**

Dear Valued Customer,

Pfizer Hospital is committed to keeping you informed of product changes so that you can plan for patient care. As such, we want to make you aware of an impending packaging and NDC change for Hydromorphone HCl Injection, USP, CII 2 mg/mL Single Dose Glass Fliptop Vial, arising from a modification to the equipment used to manufacture this product.

Specifically, packaging for this product will change from a 25-vial tray to a 10-vial carton, also resulting in a change to the product's Unit of Sale (UoS) NDC number. These updates are summarized in the TRANSITION TABLE below. Please note there will be no change to the Unit of Use (UoU) price, indication or formulation of this product.

We are requesting that customers continue ordering the current NDC, 00409-3365-01, until supply is depleted, and are providing this advance notice so that customers may prepare their internal systems accordingly. The transition to the new NDC, 00409-3365-10, will occur as soon as all remaining inventory of the current NDC is depleted. We are preparing for this transition as soon as the week of July 19, 2021, but anticipate that it may occur in August 2021 based on current demand projections. Once the new NDC becomes available, please keep in mind that wholesaler inventory may vary based on location.

TRANSITION TABLE

CATEGORY	CURRENT	NEW
Unit of Sale NDC	00409-3365-01	00409-3365-10
Unit of Use NDC	00409-3365-11	No Change
