275 North Field Drive
Lake Forest, IL 60045

March 31, 2017

Dear Valued Customer:

Pfizer Injectables is committed to ensuring high quality products for healthcare providers and their patients. As such, we would like provide you with an update on National Drug Code (NDC) labeling of our products.

A total of 40 new **Unit of Use** NDC numbers have been assigned since the last update in November 2016. For ease of reference, a complete listing of impacted products is provided as an appendix to this letter. The 40 new Unit of Use NDC numbers are highlighted for your convenience.

We have continued to implement changes to the way the NDC numbers are displayed on our injectable products to address evolving expectations. This involves the last two digits of the NDC, known as the package code, to be changed at the **Unit of Use** level. This is done to distinguish between the **Unit of Sale** and the **Unit of Use** in the event they are different quantities.

The product NDC is left unchanged and is also included in the product insert. The product NDC will continue to be the **Unit of Sale** and is the NDC that should be used when ordering product.

The products listed below have been updated and now have **Unit of Use** NDCs after April 2015. However, as part of this ongoing transition, you may continue to receive product with non-differentiated Unit of Sale and Unit of Use NDCs and/or product with the new Unit of Use labeling implemented.

Please note that appearance on this list only indicates a change to NDC occurring after April 2015, and is not an indication of available supply.

Thank you for your understanding as we implement these changes. We will continue to communicate updates on a regular basis. If you have any questions or need additional information, please call Customer Service at (844) 646-4398.

Thank you for allowing Pfizer Injectables to serve your product needs.

Regards,

Beth Ann Bord
Director, Business Operations
Pfizer Injectables
