

Fragmin[®] Now Available From Pfizer Injectables

As of April 1, 2015, Pfizer Injectables acquired Fragmin[®] (dalteparin sodium injection) from Eisai Inc. Although Fragmin will have new NDC numbers, nothing relative to the manufacturing of the product is changing. The product packaging will now reflect Pfizer Injectables.

Fragmin has been manufactured by Pfizer for more than 20 years, submitting the original NDA in 1994. Although Eisai licensed the brand for promotional rights in 2005, Pfizer remained the manufacturer. Now the product is returning to the Pfizer Injectables portfolio.

Available dosage forms and the corresponding NDCs are as follows:

<i>Potency</i>	<i>Old NDC (Eisai)</i>	<i>New NDC (Pfizer Injectables)</i>
2,500 IU/0.2 mL Single-dose PF Syringe, 10's, preassembled with needle guards*	62856-250-10	00069-0195-02
5,000 IU/0.2 mL Single-dose PF Syringe, 10's, preassembled with needle guards*	62856-500-10	00069-0196-02
7,500 IU/0.3 mL Single-dose PF Syringe, 10's, preassembled with needle guards*	62856-750-10	00069-0206-02
10,000 IU/1 mL Single-dose Graduated Syringe, 10's, preassembled with needle guards [†]	62856-101-10	00069-0217-02
12,500 IU/0.5 mL Single-dose PF Syringe, 10's, preassembled with needle guards*	62856-125-10	00069-0220-02
15,000 IU/0.6 mL Single-dose PF Syringe, 10's, preassembled with needle guards*	62856-150-10	00069-0223-02
18,000 IU/0.72 mL Single-dose PF Syringe, 10's, preassembled with needle guards*	62856-180-10	00069-0228-02
95,000 IU/3.8 mL (25,000 IU/mL) MDV, 1's	62856-251-10	00069-0232-01

IU—International Unit. MDV—Multidose Vial. PF—Prefilled.
